I am sending some information on *Culligan's Aqua-Clear Reverse Osmosis System with the optional EZ4 Total Defense Filter* which will make your tap water into purified reverse osmosis drinking water. This is an alternative to bottled water, and would give you the same quality water made fresh on demand. This system would typically be installed under the kitchen sink with a separate faucet installed for cooking and drinking water. Culligan also offers the Clear Link Pro, which will allow the RO water to flow from your regular kitchen faucet with the touch of a button. Please visit our website at: <https://www.culligannc.com/clearlink-pro> for more information on this option.

If possible, plumbing a line to your refrigerator icemaker/dispenser to provide RO water to this secondary location can be performed for an extra \$100.00-\$200.00 to cover the extra plumbing and labor.

The RO system does have a lifetime warranty to the original owner of the equipment, and the price is \$1095.00 + tax with the EZ4 Total Defense and 2 or 3gallon tank, including standard installation. There would be an additional \$100 - \$200 to run an extra plumbing line to a remote location, custom faucet upgrades average a \$100, or the Clear Link Pro Option for \$299.00. Culligan also provides annual filter service for \$85.00 labor which includes changing the necessary filters, testing the water to calculate % of rejection, adding air to the bladder tank, and sanitizing the housing. This insures your RO system is performing at optimum. The costs for the particulate filter, 2 carbons, and total defense will be \$124.90 recommended annually. The membrane usually is replaced between 2 to 4 years depending on result of water test, and will cost \$209.95 for ALL 5 replacements when the membrane must be changed.

We also rent the Aqua-Clear RO System with Total Defense Filter which includes all maintenance on the equipment including annual filter exchanges. The installation would be \$199 to \$299.00 depending on the installation, and the rental rate is \$38.95 plus tax. There is an 18-month minimum commitment term with the rental option, then rental rate continues month to month thereafter. Please look over the information at your convenience and call with any questions at 910-762-0617.

Sincerely,

Jacqui Leiblein
